Subject: Penawaran Harga untuk Kabel Protolon (SMK) LWL

Dear Pak Berian.

Sesuai dengan percakapan kita lewat whatsapp, bersamaan dengan email ini saya sampaikan spesifikasi kabel yang kami gunakan di Terminal Petikemas belawan Fase 2.

Berdasarkan info dari crane maker, total kabel yang digunakan pada gulungan cable reel adalah sepanjang 415 meter.

Sehubungan dengan hal tersebut, dimohon kerjasamanya agar dapat memberikan penawaran atas barang dimaksud. Berikut terlampir spesifikasi dari kabel MV Cable Reel yang kami gunakan.

Demikian disampaikan, atas kerjasamanya diucapkan terimakasih.
