Re: Confirmation Letter

Dear Customer,

Referring to our Agreement UM.54/5/11/PTP-18 regarding Procurement of 12 (Twelve) Units of Automatic Rubber Tyred Gantry (A-RTG) Crane at Belawan Container Terminal Phase 2 and referring to technical specifications point 4.15.3 about "Different types of lubricant shall be kept to the minimum. Only one type nipple grease shall be used, if possible and unless approved by the Owner. One set of grease guns and lubricant filling and emptying equipment with agreed spares shall be supplied with the crane" and point 5.11.1 about "A permanent two-way telephone/intercom system shall be provided to enable intercommunication between the electrical room, on the girder walkway and the gantry leg near the ground level (Proximity of pedant" and point 5.11.2 about "Two way Radio communication mobile VHF-FM transmitter with power output min. 60 W, frequency range shall suitable with available local frequency".

We, Konecranes confirmed will submit the grease gun and provide the telephone based and Radio on technical specifications.

Thank you.

Konecranes Finland Corporation

Tapani Manni
